Re.....: Amanda's Law - Smoke Detector Affidavit

Carbon Monoxide Alarms

At its meeting held on December 16, 2009, the State Fire Prevention and Building Code Council determined that adopting this rule on an emergency basis is required in order to comply with legislation, [Amanda's Law](#), which went into effect on February 22, 2010, and to preserve public safety by clarifying requirements for Carbon Monoxide Alarms.

This rule has been adopted as an emergency rule. The following link provides background on the legislation, <http://www.dos.state.ny.us/code/coalarm.htm>

If you have any further inquiries regarding this matter, please do not hesitate to contact me at (516) 918 - 4540.

Sincerely,

Amanda's Law

Carbon Monoxide Alarms

Amanda's Law was named in honor of Buffalo resident Amanda Hansen, a teenage girl who lost her life to carbon monoxide (CO) poisoning from a defective boiler when sleeping over at a friend's house in January 2009.

Beginning February 22, 2010, a new law goes into effect in New York to help protect your family from carbon monoxide poisoning.

The new law requires the following:

- CO alarms must be installed in all new and existing one and two-family dwellings, multifamily dwellings and rentals having a fuel-burning appliance, system or attached garage.
- The National Fire Protection Association (NFPA) recommends CO alarms be installed in a central location outside each sleeping area and on every level of the home.
- CO alarms must be listed to comply with UL (Underwriters Laboratories) 2034 or CSA (Canadian Standards Association) 6.19 and installed in accordance with manufacturer's instructions.
- For more information on CO, visit www.dos.state.ny.us/fire
